Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Art Unit: 3634

Claim 11 is objected to because of the following informalities: the phrase "the first strap" and "the second strap", as set forth in claim 11, lack antecedent basis. Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4,5 and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 4,5 and 12, the limitation of the first strap is directed to the arch strap, as disclosed, while in claim 2 from which they depend, the second strap is recited as being the strap for fitting around the arch of the foot, thus rendering the claims indefinite.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3634

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Treadwell. Treadwell shows a first strap 50, wherein the first strap is capable of fitting around the arch of a user's foot, second strap 52 and clips 62,66.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Treadwell. The examiner takes official notice that the claimed clip with male and female portions are conventional clips which facilitates releasable connection, and to provide the claimed conventional clips to Treadwell, in lieu of his, to facilitate releasable connections would have been obvious to one of ordinary skill in the art in view of the conventional clips.

Claims 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Treadwell in view of either Paul or Nelson. Treadwell shows the claimed foot strap but does not show a tree stand. Both Paul and Nelson show the claimed tree stands. It would have been obvious to one of

Art Unit: 3634

ordinary skill in the art at the time the invention was made to provide Treadwell with a tree stand, as taught by either Paul or Nelson, which is capable of being used with his foot strap.

Applicant's arguments filed 5/11/05 have been fully considered but they are not persuasive. Applicant states that the examiner does not address all the claimed elements, specifically that Treadwell's foot is not on a tree stand, it is noted that no claim requires a foot strap on a tree stand, with respect to the size of the strap 50 of Treadwell, the size of the strap 50 is capable of fitting around the arch of a user's foot depending on the size of the foot of a user, furthermore, the said strap is adjustable to different size.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed; and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory

Art Unit: 3634

period for reply expire later than SIX MONTHS from the mailing date of this final action.
